

RISHI MIHIR POPAT

Manipal, Karnataka | +91 9650422634 | rishipopat@outlook.com | github.com/Slayr

EDUCATION

Manipal Academy of Higher Education – PSPH

M.Sc in Data Science

The NorthCap University

B.Tech in Computer Science Engineering (Specialization in AI & ML)

Pathways World School

IB Diploma Programme

Manipal, Karnataka

July 2025 – Present

Gurugram, Haryana

2021 – May 2025

Gurugram, Haryana

2011 – 2021

TECHNICAL SKILLS

Languages: Python, R, SQL, C++, Java, Javascript, PHP

Frameworks & Web: Laravel, Backend Development, Web3, PostgreSQL, MongoDB, Apache, NGINX, Svelte, Cloudflare

AI/ML: CNNs, NLP, Feature Detection, Deep Learning, Computer Vision, RL, Transformer Architecture, LLM Fine-Tuning

Tools & Cloud: AWS (Cloud Foundations), Git, Google Suite, Microsoft Azure, Power BI, Tableau, Excel

Spoken Languages: English, Hindi, Spanish, French

EXPERIENCE

Google User Research

Research Collaborator

Remote

Jan 2025

Collaborated with Google's user research team to evaluate early-stage app prototypes, providing data-driven feedback.

Stratbeans

SDE Intern

Gurugram, Haryana

July 2024 – Dec 2024

Developed and maintained LMS systems using PHP and Laravel. Implemented critical bug fixes and worked on prototyping updated versions of tech stack using Laravel Integrations with AngularJS and Tailwind CSS.

HopDrones

Senior Intern

Gurugram, Haryana

July 2023 – Nov 2023

Managed a team of interns. Achieved and exceeded a goal of development of autonomous Motion detection and tracking in lightweight drones using YOLO and ByteTrack.

Gemini Solutions International

Campus Ambassador

Remote

2022 – May 2025

Championed the company's presence on campus through targeted outreach and events.

KEY PROJECTS

CNN Explained | *Python, TensorFlow, Grad-CAM*

Built an Explainable AI (XAI) tool to visualize CNN decision-making on the MNIST dataset. Implemented Grad-CAM to generate attention heatmaps and automated pipelines to debug model failure modes.

Laravel LMS | *PHP, Laravel, MySQL*

Built a robust Learning Management System featuring course management, user roles, and progress tracking capabilities.

Local News Aggregation Web3 App | *AI, NLP, Blockchain*

Developed a decentralized application using AI and Natural Language Processing to aggregate local news.

Network Vulnerability Assessment | *Python, Security*

Explored deep learning methodologies for network vulnerability assessment and packet analysis.

CERTIFICATIONS

Harvard University: CS50X (Intro to Computer Science) & CS50AI (Intro to AI with Python)

AWS: Academy Cloud Foundations & Machine Learning Foundations

World Quant University: Applied Data Science Lab

Arizona State University: Certificate of Innovation

LEADERSHIP

President, Media Relations Club (2021 – 2023): Orchestrated social media campaigns and university marketing collaborations.

Secretary, OPTICA (2021 – 2023): Managed administrative tasks and fostered a collaborative research environment.
